Committed to delivering professional results and constantly expanding my skills to yield innovation and success.

PROJECTS

Omni AI Platform   *https://github.com/plode-v/omni-ai.git*
Creator / Developer

- Deleveoped Omni-AI, a cutting-edge SaaS platform that combines all AI-generated services into a single, user-friendly platform.
- Integrated various APIs including Open AI and more to offer a comprehensive range of AI services in one place
- The platform provides cost-effective solutions as users no longer need to pay for multiple services from different sites; they can access all services through Omni-AI with a single subscription
- Built with Next.js 13 for high performance and server-side rendering alongside Tailwind CSS for styling, resulting in a seamless user experience and visually appealing user interface
- Omni-AI is currently in the development phase, with plans to integrate payment methods for premium users using Stripe for secure transactions
- Omni-AI aims to empower users with AI capabilities, fostering creativity and productivity across various domains within a unified platform
