PROFESSIONAL SUMMARY

Driven Thai-American developer based in Bangkok, Thailand, with a strong passion for web3 development, and front-end development. Experienced in delivering innovative solutions and leveraging curing-edge technologies to create robust web applications.

I am seeking remote work opportunities where I can leverage my expertise and contribute to impactful projects. Adaptable to different time zones, I offer employers the convenience and flexibility of seamless cross-border collaboration without visa or permit requirements. Committed to delivering professional results and constantly expanding my skills to drive innovation and success.

PROJECTS

EasyFit Calorie Tracker   *https://easyfit-sepia.vercel.app*
Creator / Developer / Designer

- Developed a full-stack MERN (MongoDB, ExpressJS, ReactJS, NodeJS) application for tracking daily calorie intake
- Implemented React Context for instant data updates and smooth workflow
- Integrated Passport.js and JWT for secure user authentication and authorization
- Implement data input forms and database integration for users to add food items with corresponding calorie values and track their consumption
- Designed a user-friendly dashboard to display daily calorie intake
- Utilized MongoDB for data storage, ensuring privacy and data integrity
- Demonstrated proficiency in responsive design and adhered to coding standards for maintainability and scalability
